Dear participants,

Dayanand Science College, Latur is organizing Faculty Development Programme: State level one week, interdisciplinary short term course on "Uses of Modern Technologies in Higher Education" on 24th March to 29th March 2015.

This course represents an opportunity to realize the importance of modern technologies in the class room and in research field. It gives us immense pleasure incordially invite you and expect your academic cooperation and genuine participation in this course.

About Institution

Dayanand Education Society, Latur (Maharashtra) is a well known educational institution in Latur. It was established in 1961. The institution was established with the sublime intention of providing education to the deprived sections of the society and generate among them awareness towards education. The institution is running Science, Arts, Commerce, Law and Pharmacy faculties.

About the College

Dayanand Science College is bifurcated in 1967 and established a separate college under the umbrella of Dayanand Education

Society. The college has sufficient infrastructure with well library, Indoor stadium, spacious play ground, auditorium, hostel facility and other physical facilities. It is offering a number of subjects at higher education level. The college was awarded with best college(urban level) by Swami Ramanand Teerth Marathwada University, Nanded in 2014 and accredited with A grade in 2014 by NAAC. The college has also received DST's FIST recognition.

About the Short Term Course

The theme of the STC is Uses of Modern Technologies in Higher Education is interdisciplinary. A large no. of teacher working in higher educational institutions especially in college, engage themselves significantly in teaching and research work.

This STC will be helpful the participants to acquaint themselves with the dynamic trends of uses of modern technologies in higher education which may shape their teaching work and research work in the right direction. Thus the present STC will make as attempt to provide some practical training in uses of modern technologies in higher education which will improve te quality of teaching and research. Keeping this in view the following objectives have been set.

Objectives of STC

1. Understand and be able to apply best practice standards,
2. Learn or upgrade participatory planning skills.
3. Create effective logical framework.
4. To discuss the role of information technologies in research.

Eligibility for participation: All permanent Assistant, Associate Professor.
